## C Series<sup>®</sup> Salt Water Chlorinator

**CLEARWATER<sup>®</sup>**  
World's leading salt water chlorinators

# C Series® Salt Water Chlorinator

- The system requires only a small amount of salt to be added periodically to compensate for normal backwashing and topping up of you pool water.
- Using chlorine is a proven way to destroy bacteria, viruses and algae in a pool. The Chlorinator produces its own chlorine when salted water passes through the salt cell. The Chlorine dissolves in the water immediately to safely sanitize the pool.
- The C series salt chlorinator is designed to handle the low concentration level of salt in pool water and cope with enormous variations in salinity, from a minimum of 3000ppm up to seawater levels of 35,000ppm.

## C Series Chlorine Output

Model	Equivalent Granular Chlorine produced in 8hrs	Pool Capacity Cool	Pool Capacity Temperate	Pool Capacity Hot
140	185gm	90,000	60,000	45,000
170	225gm	108,000	72,000	54,000
200	265gm	126,000	84,000	63,000
250	330gm	156,000	104,000	78,000
400	530gm	240,000	160,000	120,000
500	665gm	312,000	208,000	156,000

Zodiac Group Australia provides a two-year warranty on the Power-pack and a five-year pro-rata warranty on electrodes. All products are available for sale and warranted in Australia and New Zealand only.
