Water purity too good to miss!

Nature2 - Water purity you can see and feel.
With less maintenance, better water quality, fewer chemicals
& less hassle, Nature2 is what every pool needs.

ZODIAC

The Natural Mineral Purifier for Pools

When you swim in a pool purified by Nature2, the water quality is actually softer and more pure than any other pool water you've experienced. Your pool water is not only brilliantly soft but it's more stable because the natural minerals used by Nature2 are unaffected by bather load, heat or rain.

What is Nature2?

Nature2 is a water purifying system, which uses trace elements to maintain a more balanced pool. Using Nature2 allows you to use significantly less harsh chemicals like acid and buffer. The silver in Nature2 combined with chlorine assists in maintaining the sanitation of the pool. Nature2 keeps pool water stable even in hot weather and in heavily used pools.

How does it work?

With over 20 World Patents and 14 years of development, the Nature 2 Purifier directs water through a replaceable cartridge. The cartridge contents are made of a large surface area mineral bed. Minute amounts of copper and silver are dissolved into the water - lower than EPA* drinking water standards. This reacts with chlorine to assist in maintaining the sanitation of the pool. The Nature2 cartridge contents are made up of a surface, which is both reactive and adsorptive. The surface generates active oxygen and binds strongly to sulphur groups of bacteria, while its adsorptive characteristics lead to removal of metals and organic molecules from the water.

Say YES to Less Maintenance

With a dramatic reduction in other chemicals, maintenance and water balance will definitely be easier and less time consuming.

Say YES to Better Water Quality

Fewer chemicals mean less dissolved solids and less pH bounce. The ceramic bed picks up the small particles the filter doesn't trap - leaving the water soft and brilliantly clear. It's like stepping into body lotion.

Say YES to Fewer Chemicals

With a chlorine level at 1 ppm** your pool remains more stable with Nature2.

Say YES to Effectiveness

Nature2 Purifiers have been installed in over 400,000 pools around the world and help to maintain a healthy pool for these families.

Say YES to Less Hassle

Nature2 works automatically. Less maintenance and water balance adjustments and more time to enjoy your fresh, natural pool. So if you want water purity you can see and feel, with less maintenance, better water quality, fewer chemicals & less hassle.... just say YES!
